

## Exhibit Program Management

Our full-service capabilities simplify your job. Let us handle the details. During the planning stages, we'll correspond with show management, asking questions that get the right answers. And we can cut the red tape, while completing all required show forms. If your trade show schedule looks like a major league ball club's, Defined Exhibits can eliminate the stress. We'll monitor every aspect of the journey. With multiple trade shows and diverse market segments, managing the graphics can get confusing. We'll develop a library of your trade show graphics—and deliver them where they belong!
